Volunteer Voices: Opportunities & Options

In today's society, it is becoming increasingly harder for businesses and organizations that depend on a strong volunteer base to find individuals who have an interest and desire to donate their time and talents. This event is designed to help understand why people volunteer, how to recruit these individuals, hints for training, maintaining and retaining, recognition practices, and assistance for volunteers in their roles as managers of volunteers.

This is why Northwest Aging Association, an agency that relies heavily on volunteers to assist with the many programs and services offered by the agency is offering this interactive workshop for other agencies and organizations that utilize the talents of volunteers.
